SUMMARY---

Enthusiastic about technology, constantly learning and exploring emerging trends. Thrives in collaborative environments, driving impactful projects with creativity and adaptability.

EDUCATION--

School of Engineering, Pokhara University, Nepal   *Sep 2018-Oct 2023*

Bachelor of Computer Engineering

Studied in Pokhara university with full scholarship for 4 years of ungraduated degree.

Dean listed (Rank 1) GPA :3.87

Diamond Secondary School   *Aug 2016 -Sep 2018*

+2 in Science, Secondary School

GPA: 3.23

EXPERIENCES---

Darmstadt University of applied science   *Mar 2020 - July 2020*

Wheelscout project

Experience in working with the team, this is the first project that I participated when I was in third semester. The project is related to providing barrier free route for wheelchair user. I worked in team to collect the data and visualized it in chart.

Women leader in Technology (WLiT)   *Mar 2022-Nov 2022*

Women Leaders in Technology (WLiT) is non-profit organization which empowers women in tech

to become innovators and leaders.

- 10 days bootcamps on both technical and non-technical skill.
- Smart goal setting Leadership Training, Presentation Skill and Teamwork etc.
- Communication, time management, design thinking.
- Hackathon which was about solution to the problem of tourism in Pokhara city, Nepal.

Hour of code

Support by women leader in technology.

Provide one day session to public school student which is about awareness of technical career and find out whether they were interested in technical field and because of lack of proper information they hold their interest specially girls.

Nipuna Prabhidhik Sewa l Pokhara   *Sep 2022-nov 2022*

Web development Internship

Involved as a Laravel trainee in nipuna prabhidhik Sewa, during my tenure as a Laravel Trainee at Nipuna Prabhidhik Sewa, I gained valuable experience in web application development using PHP, HTML CSS and JavaScript with the Laravel framework. I played a pivotal role in creating and managing RESTful APIs, ensuring efficient data retrieval and manipulation with MySQL database.

Encoders Inc l Pokhara   June *2023- Aug 2023*

Backend Intern

As a NestJS intern at Encoders Inc., I had the privilege of working with talented team of developers, gaining invaluable experience in backend development. I developed and maintained RESTful APIs, ensuring data integrity and security through the implementation of authentication and authorization mechanisms. Additionally, I played a crucial role in optimizing database queries and managing database schemas.

Volunteering in college orientation program

- Assisted new students during college orientation sessions.
- Provided information about campus resources and facilities.
- Contributed to creating a welcoming atmosphere for incoming students.

PROJECTS--

MEETGUIDE   *Mar 2022-Nov 2022*

- Participated in hackathons organized by women leader in technology on web development with html, CS and JS with node.js and expressjs with MongoDB database.
- Focused on problem related to tourism specially in Pokhara.

WHEELSCOUT PROJECT   *Mar 2020 - july 2020*

Worked as team member in WheelScout project, and responsible for statistic collection of routing request/response and visualize in chart.js using python (pip), js, MYSQL database

Home Rental system   *Nov 2021-Jan 2022*

- Worked as team leaders in home rental system project as mid project at sixth semester(2 credit hour project).
- Html, CSS, PHP and MySQL database.
- Provide easy and affordable way to find room.

connect_krishi   *May 2023- Sept 2023*

Created a Flutter-based mobile application, "Connect Krishi," as my final year project, bridging the gap between farmers and customers by enabling seamless communication and access to agricultural products along with secure payment and personalized recommendations to enhance the user experience for both farmers and customers.

SKILLS---
